Expected / Potential Liens

Potential Lienholder	Reason	Current Assessment
EDD / State Disability Insurance (SDI)	Reimbursement if SDI had been paid during any period later determined to be covered by TD.	EDD has confirmed no SDI benefits have been paid for the 09/13/2024–02/29/2025 TD period. No EDD lien is expected at this time.
Medical Providers	Out-of-network or unpaid treatment charges that could be asserted as liens.	All treatment to date has occurred within the employer's workers' compensation MPN and has been paid timely. No outstanding medical provider balances have been identified; no medical liens are expected.
Applicant Attorney	Statutory attorney fee lien against permanent disability benefits.	Applicant counsel's fee will attach by order of the Workers' Compensation Appeals Board to any PD award or settlement. This is treated as an ordinary attorney lien and is not tracked as a separate EAMS lien filing.

Lien Handling Notes

- Maintain periodic checks of EAMS for any new lien claim filings prior to settlement approval.
- Reconfirm SDI status with EDD shortly before settlement documents are submitted.
- Have bill review confirm there are no unpaid MPN medical balances that could trigger lien activity.
