

# Psych QME Summary

*Simulated training document only — not an official or live claim file.*

## QME Information

<b>Specialty</b>	Psychology
<b>Evaluator</b>	Rachel Singh, PhD
<b>Panel Type</b>	Panel Qualified Medical Evaluator (Psychology)
<b>Exam Date</b>	03/20/2025
<b>Report Date</b>	04/05/2025

## Diagnoses

Diagnosis	Description
Generalized Anxiety Disorder	Chronic anxiety predating the industrial injury with multiple non-industrial stressors.
Major Depressive Disorder, mild	Chronic, mild depressive symptoms with long-standing pre-existing causes.

## Causation Opinion

Issue	Opinion
Industrial contribution	Less than 10% of overall psychiatric condition related to the 09/12/2024 work event.
Primary causes	Pre-existing psychological history, including childhood trauma and ongoing non-industrial life stressors.
Compensable injury standard	The threshold for a compensable industrial psychiatric injury is not met.

## Disability and Treatment

Issue	Opinion
Temporary disability	QME finds no temporary psychiatric disability attributable to the 09/12/2024 date of injury.
Permanent disability	QME finds no permanent psychiatric disability attributable to the industrial event.
Industrial psych treatment	Additional treatment, if any, is considered non-industrial and not the responsibility of this claim.

## Impact on Claim

- Supports denial of the psychiatric component as a compensable injury or consequence.
- No additional reserves for psychiatric TD or PD are indicated.
- Psych issues are not included in settlement valuation for industrial disability.
